RESEARCH INTEREST

Software Engineering, Data analysis, Artificial Intelligence

EDUCATION

Kwame Nkrumah University of Science and Technology, KNUST Master of Philosophy, Computer Science	Jan 2024 - Nov 2025
Kwame Nkrumah University of Science and Technology, KNUST BSc. Computer Science	Sept 2019 - Aug 2023
Blossom Academy Data Analysis	Mar 2024 - Aug 2024
St. Francis Xavier Minor Seminary, Wa, Upper West Region General Science (West African Senior School Certificate Examination)	Sept 2016 - July 2019

PROFESSIONAL EXPERIENCE

Backend Engineer, Amalitech Ghana Spring Boot backend development for financial apps	Jan 2026 - Present
Backend Graduate Trainee, Amalitech Ghana - Developed backend services using Spring Boot - Built 8+ REST APIs for real-world application use cases - Collaborated with frontend trainees to build a fully functional job application and recruitment platform	April 2025 - Dec 2025
Research and Technical Information, Efficient Supply of Goods, Africa, - Organising research and engaging stakeholders - Running of activities and preparing company documents - Testing and review platform	Sept 2022 -Present
Lead, IoTHub Network, KNUST Chapter - Organising monthly community sessions for members to interact and learn about new technology - Planning and executing tech events with the Kumasi Chapter - Developing practical IoT solutions for presentation at expos	Nov 2023 - 2025
Graduate Teaching Assistant, Department of Computer Science, KNUST - Supported and tutored 1,300+ students on the introduction to programming and writing algorithms - Preparing presentations, presenting learning materials and coursework, and conducting tutorials - Assisting in research and submission of Manuscripts for publication	Jan 2025 – Aug 2025
Undergraduate Teaching Assistant, Department of Computer Science, KNUST - Supported and reviewed {21+} research projects of undergraduates - Preparing presentations, presenting learning materials and coursework, and conducting tutorials - Assisting students in academic work by explaining topics and summarising data	Nov 2023 - Dec 2024
IT Support Lead, FlincHub	Nov 2020 - Nov 2023

- Managed system maintenance, software updates, and implemented an automated Email Spam Sorting system
- Developed a biometric attendance system using Arduino and oversaw website development using various technologies

Lab Intern, *CARISCA Innovations Lab, KNUST*

Sept 2022 - Dec 2022

- Managing and developing the company platform, Efficient Supply of Goods (ESOG) Africa
- Engineered an Employee Management System and a Customer Relations Application, while researching Ghanaian farming practices
- Spearheaded project specifications and pitch deck design, UI development using Figma

President, *Computer Science Society (KNUST)*

Sept 2022 – Aug 2023

- Established The Prof Acquah Battle. A competition that presents a mixture of writing algorithms, solving technical quiz questions, and building a solution for a problem in a limited time frame.
- Coordinating with the Computer Engineering Students Association for joint event ideation and organisation
- Organised and tutored BSc Computer Science subjects, and provided learning materials to students in the society
- Organised seminars on Innovations, Blockchain, Machine learning, and Version Control for society members
- Organised academic outreach to High Schools in the Ashanti Region, Kumasi, Ghana
- Orchestrated Hackathons and Bootcamps focusing on various technical domains
- Increased Engagement and Impact with the School of Groups (SoG) initiative

Machine Learning Core Team Member, *GDSC KNUST*

Aug 2022 – Aug 2023

- Led Python programming sessions, conducted Machine Learning challenges, and facilitated boot camps

VOLUNTEER

Volunteering Facilitator, Beistand tech All-Out Flutter Mobile Dev Boot Camp

Feb 2023 – Mar

2023 Helped participants set up, explained programming concepts, and coordinated boot camp activities.

Technical Team Lead, *Tek Invasion Hackathon 2023*

Budgeted technical materials, managed resources, organised and assigned tasks

PROJECTS

- Snap Service: A microservice Spring Boot API for locating services around you using proximity search, booking, making requests, real-time chat and notification.
- Full-Stack job application and recruitment system using Spring Boot and AngularJS
- ByteBites: A microservice Spring Boot application with event management using Kafka
- Task Management API: A Spring Boot API with RBAC for different user groups
- Facial Recognition Attendance System built with OpenCV, Haarcascade, and FastAPI
- Fruit Quality Assessment Application built using TensorFlow, Flutter
- Herbal Plant Species Prediction model using TensorFlow, Streamlit
- Using Django, Bootstrap, and Postgres, I built a customer management system
- Automated object rejection Arduino bot

ACHIEVEMENTS/AWARDS/HONORS

- Academian, Next Generation Digital Action(NGDA), 2024
- 3rd place, International Process Optimisation Challenge (IPOC), 2023, Tunisia
- Computer Science Society Handing Over and Excellence awards, KNUST 2023
- 3rd place, Swiss Re Startup Academy, JA Ghana 2020
- 1st place, Robotics Inspired Science Education (RISE) Program, 2018

CERTIFICATES

- Learning Spring Boot and Spring Security, LinkedIn
- Machine Learning with Python, Datacamp
- Python Programming for Developers, Datacamp
- Python Educator Certification, VEX.CODE VR
- Google Data Analytics, Coursera
- Learning Django, LinkedIn

SKILLS

Technical Skills

- Programming Languages: Java, Python, C++, Visual Basic, SQL, JavaScript
- Frameworks and Tools: SpringBoot, TensorFlow, OpenCV, Jupyter, Pandas, Streamlit, NumPy, Matplotlib, Django, FastAPI, PostgreSQL, Kafka, Tailwind CSS, Git, GitHub, Figma, Firebase, Power BI
- Special Skills: Software development, Data Science, IoT, Data Analytics, Research, UI/UX, Web Development, Algorithms, API Development, Teaching, Testing, and Monitoring

Soft Skills

Team Work, Leadership, Oral and written communication, presentation, analytical and interpretability, fast learning
